

Kartmagic Integration Document

Introduction

This guide will show you how to configure PayUmoney as your payment processor on Kartmagic for payments through Credit Card, Debit Card, Net banking and Saved Cards.

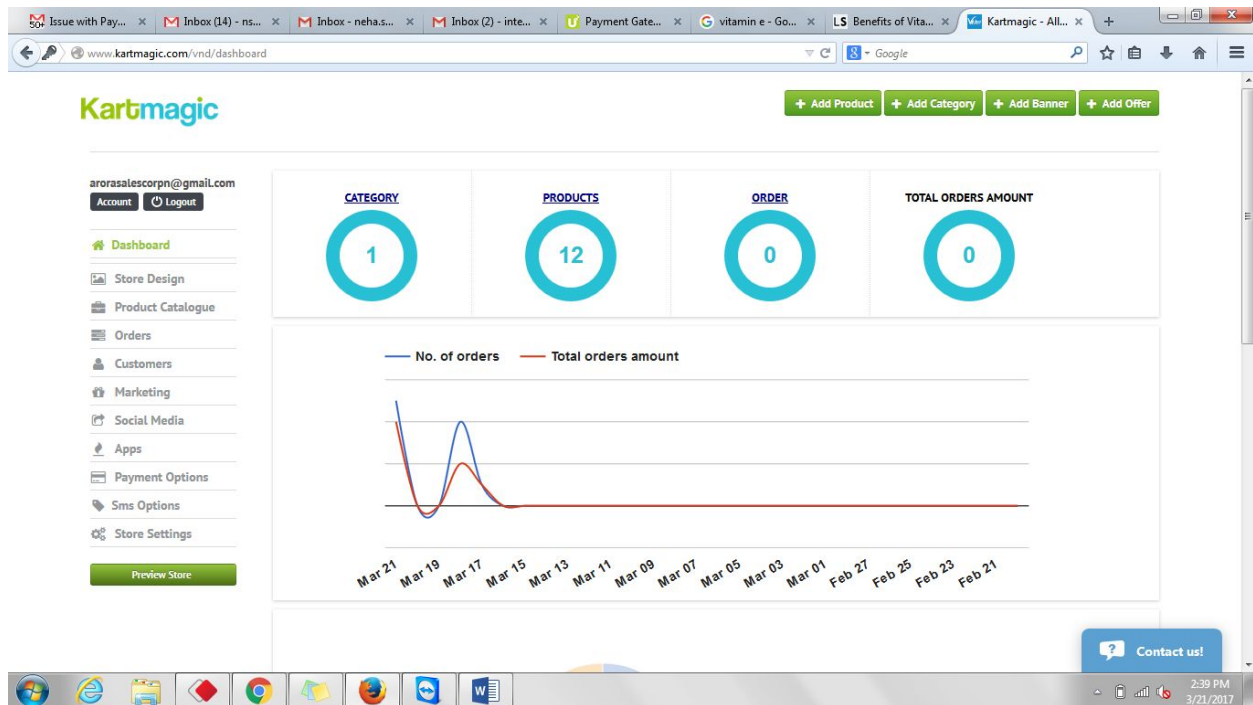

Prerequisites

To Integrate PayUmoney payment gateway, you must:

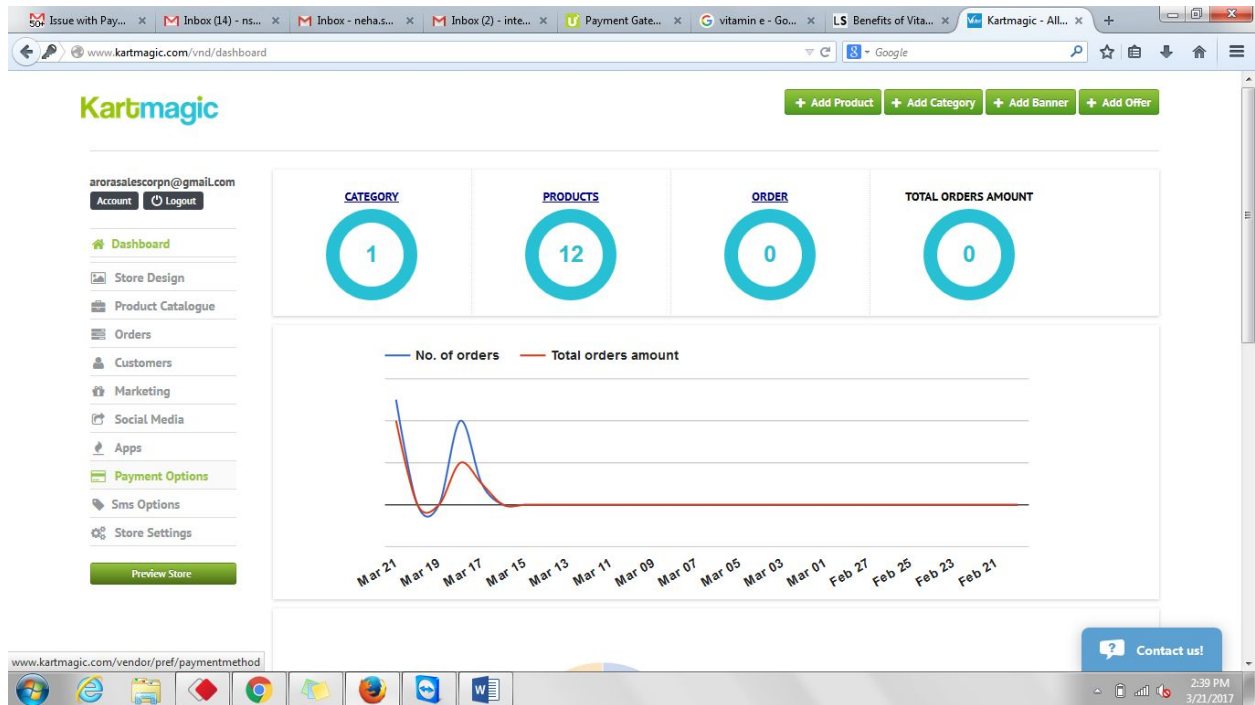

1. Have a merchant account with PayUmoney. If haven't already registered, please visit <https://www.payumoney.com/> and then register as a merchant.
2. Know your Salt & Key. These are available on the dashboard. If you already have a PayUmoney merchant account, please login at <https://www.payumoney.com/> and you will be able to retrieve your salt and key from the "Account details" tab.

Steps to Integrate

1) Login to your Kartmagic account:

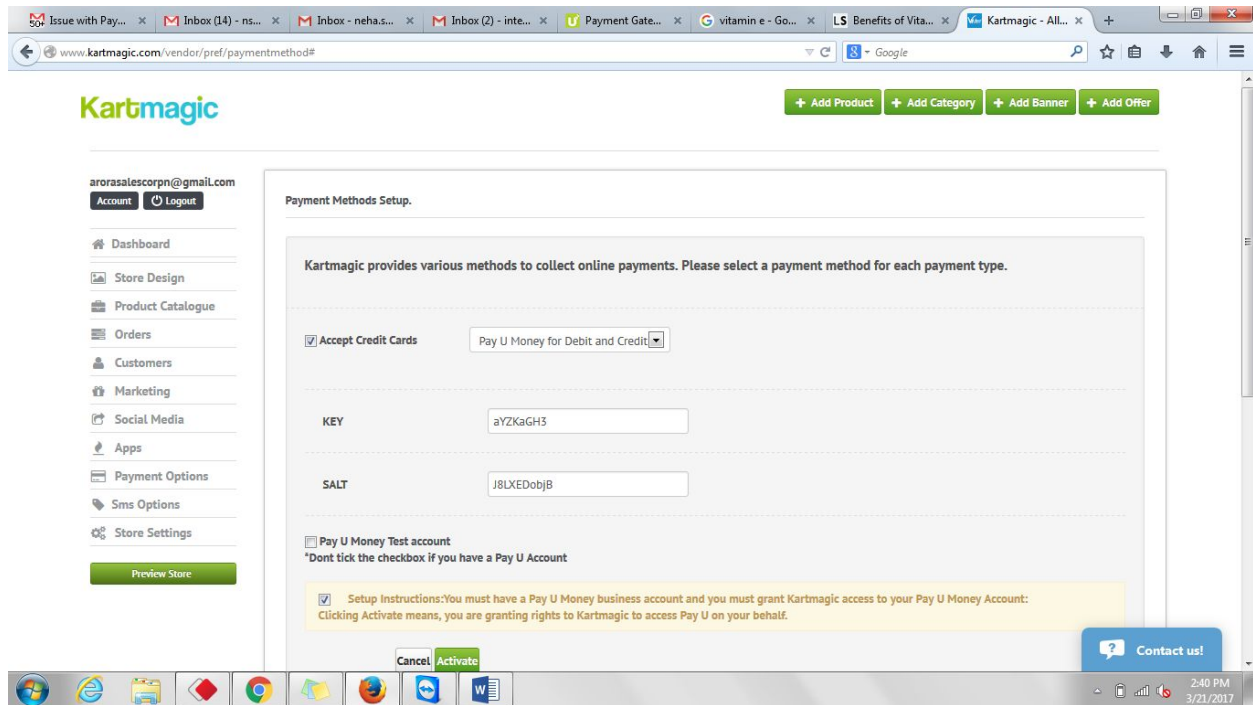

2) From menu given on left, Choose 'Payment options':

3) Choose the **Accept Credit Cards** option then select PayUmoney from the list.

The screenshot shows the 'Payment Methods Setup' page in the Kartmagic dashboard. The page title is 'Payment Methods Setup.' and the instruction is 'Kartmagic provides various methods to collect online payments. Please select a payment method for each payment type.' The page lists several payment methods with checkboxes: 'Accept Credit Cards' (checked), 'Cash on Delivery', 'Bit Coin', 'Paytm Transfer', 'Bank Transfer', and 'Payment Via Credits'. Under 'Accept Credit Cards', 'Pay U Money for Credit/Debit Card' is selected with a dropdown arrow. There is an 'Edit' button next to the selected option. At the bottom right, there is a 'Contact us!' button.

- 4) Enter your PayUmoney merchant **key** and **salt** available from the PayUmoney Dashboard(Login from www.payumoney.com to access it) and then click on **Activate**.

- 5) You are now good to collect Payments via PayUmoney.

Testing

If you want to test the payment first, you should obtain test values for "Merchant Key" and "Salt" (not production) and enable checkbox "Enable PayU Test mode)".
